Work on Road at Crows Nest

Work Proceeding on Road Im-
provement at Crows Nest Lake
Following the Visit of
Mr. McPherson

On May 14 a telegram was sent by Coleman town council to the Department of Public Works, Edmonton, again calling their attention to the condition of the road, to which was sent the following letter under date of May 22:

"With reference to your wire of May 14 regarding condition of the roadway west of Crows Nest Lake—in case you are not familiar with the circumstances regarding construction of the westerly two miles of the Crows Nest highway situated in the province of Alberta, I may state for your information that for the past two years we have been negotiating with the province of British Columbia regarding route to be followed. We have an ideal location along the south side of Lake Island. If we construct along this route it will intersect the Alberta-B.C. boundary to the south-west of the Canadian Pacific Railway and will make it necessary for B.C. to construct a road to connect with it. As soon as B.C. is prepared to do so, we will immediately proceed with the construction of this road.

"The route B.C. would have to follow is quite feasible and we believe a much more satisfactory location than the present highway behind the Crows Nest station. It is almost im-

WEDDING ON FRIDAY
The marriage of Miss Binnie Young and Mr. A. Burrell was solemnized at the home of the bride's parents, Mr. and Mrs. Robert Young, Sixth street on Friday evening last, the Rev. H. D. Evans officiating. The bride was Miss Mabel Robertson, of Huxley, Alta., and the best man was Mack Burrell, brother of the bridegroom. The bride was given away by her father. Mr. and Mrs. Young having taken up residence in Lethbridge, their home here will be occupied by the newly-wedded couple, who embark on their married life with the good wishes of a large number of friends.

possible for this department to make any very satisfactory improvement across Glacier Creek west of Crows Nest lake, that is, on the present route.

"Yours very truly,
"J. D. ROBERTSON,
Deputy Minister."

Following receipt of the foregoing letter some repair work was done on the piece of road in question, men being at work there on Thursday last. It was also reported that Hon. O. L. McPherson, minister of public works for Alberta, was over the road last week, but none of the business men in Coleman or Blairmore were aware of this.

Considering the importance of the Red Trail as a transcontinental highway, people living on each side of the inter-provincial boundary are wondering why it is that the two governments cannot get together and settle this problem without further delay. It is the only bad spot in a splendid highway from Pincher Creek to Cranbrook, which is steadily increasing in

(Continued on Page Five)

The Sentinel of Crows Nest Pass

CROWS NEST MOUNTAIN—ELEVATION 9138 FEET

With the advent of the summer season, the great outdoors makes its insistent call, and fortunate indeed are those who live amid the glories of the Crows Nest Pass, with its towering peaks and spacious valleys, through which creeks and rivers with the ever alluring trout wend their turbulent way. People living amid such surroundings year after year become so familiar with them that they are apt to become unappreciative of their charms, but to the tourist they possess never ending delight, and a visit to this district by people living in places less favored by nature in scenic beauty is an event never to be forgotten.

Perhaps the most majestic sight in that of Crows Nest Mountain, the most prominent of all the everlasting hills in the Pass region, and whose peak, nearly 9200 feet above sea level, is the goal of all local mountain climbers.

As the psalmist of old said, "I will lift up mine eyes to the hills, from whence cometh my strength," so do the people of the Crows Nest Pass look up to "Old Crow" as the Sentinel of the Pass, undoubtedly one of the prettiest pictures in the whole chain of the Canadian Rockies. It stands out in bold relief, as the giant among giants, while in close proximity there is Mount Tecumseh, nicknamed by the children "The Sleeping Giant," over-

shadowing Crows Nest Lake, with an elevation of 8364 feet, and at a further distance Mount Coulthard (8868 feet), and Mount Pinolney, whose peak can be just discerned looking south from Coleman, with an elevation even higher than "Old Crow," being 9234 feet.

Amid these beauties of Alberta and British Columbia, the Canadian Pacific Railway and the automobile highway known on the road maps as the Red Trail affords travellers a splendid panorama of ever-changing scenery it would indeed be hard to equal, and with the increasing use of the auto these attractions are becoming more widely known.

Added to such scenic grandeur, there is an immense asset of material wealth in the vast bituminous coal deposits that underlie these mountains, which is utilized by that great corporation, the C.P.R., in ever increasing quantities, while hydro-electric and steam generating plants supply energy to the industrial centres from the immense Sullivan mine at Kimberley in B.C. to Hillcrest at the eastern entrance of the Crows Nest Pass.

At this time of the year, with the pines and the firs, the spruce and the poplars emerging in their summer loveliness, it is indeed a sight that inspires and enthuses and brings new life to all who might behold.

Bishop Sherman Held Confirmation Service

Inspiring Address Delivered on His
Visit to Coleman on Wednes-
day Evening Last.

The visit of Rt. Rev. L. Ralph Sherman, D.D., Bishop of Calgary, to the parishes of St. Luke's Blairmore, and St. Alban's, Coleman, on Wednesday evening, May 30, was greatly appreciated by the congregations, and at Coleman the church was filled. His Lordship was accompanied by the Ven. Archdeacon Swanson of Lethbridge, and four candidates were confirmed at St. Alban's church.

The Bishop gave an inspiring address preceding the rite of confirmation, impressing on the people the significance of the service and asking for their prayers on behalf of the four young people who were to be confirmed. He spoke very strongly on the duties of church members, emphasizing the important part the church should occupy in their daily lives, and particularly urged the men to take an active part in church affairs.

Following the service a reception was held in the parish hall, refreshments being served by the Women's Auxiliary. The Rev. A. D. Currie, rector, welcomed the bishop, who in reply stated that it was indeed a pleasure to see the progress of the church's work under the present rector, and he complimented the choir for their splendid assistance. He regretted that he could not make a longer stay and enjoy the beauties of this district, but there was so much to be done and so many places in the diocese to visit that it was impossible for him to arrange his visits for Sundays only. As he did not intend to make a long address, he called on the Ven. Archdeacon Swanson to address the gather-

ing, humorously remarking that he brought him along so that he (the bishop), might be relieved from spending too much time in talking.

Archdeacon Swanson referred briefly to the work in the diocese and of the enthusiasm of the bishop in arousing increased interest in the church, which had already achieved splendid results in the comparatively short time that he had been head of the diocese.

Following the addresses, a social hour was spent by the bishop in meeting the people, prior to his departure on the night train for Calgary.

A number of visitors came over from Blairmore and joined in the welcome to the bishop and Archdeacon Swanson.

Michel baseball team played against Coleman here on Wednesday of last week, winning by a score of 6-1. Michel scored five in the first inning, practically clinching the game. Coleman also played at Pincher on Friday evening when they were defeated in a league game.

F. J. Lote, who for several years has managed the Coleman Hardware store, resigned at the end of the month and has removed his household effects and family to Hillcrest. He has not yet decided on his future movements.

TOWN OF COLEMAN ARREARS OF TAXES

Notice is hereby given that if all arrears of taxes imposed in 1927, in respect of any parcel of land situated within this municipality are not paid on or before the first day of July next, such land will be dealt with under the provisions of the Tax Recovery Act, 1925, with a view to obtaining certificate of title in the name of the municipality in respect of such parcel.

JAMES FORD,
Secretary Treasurer.

COWLEY HOTEL SOLD

Old timers in the Pass, and newcomers too, know the old Cowley hotel as a nice convenient place to drop in when out for an auto ride, for within its hospitable walls for years past Mine Host "Hughie" has always been on hand to stretch forth the glad hand and give the welcoming smile. It is therefore with a suspicion of a sigh that many read the news that Hugh McMillan had sold his hotel to a gentleman from Gleichen, and that the old is giving place to the new. The glass of liquid refreshment that could always be obtained there may be just as cool and refreshing as ever when out for a ride from the Pass towns, but there will not be just the same atmosphere with Hughie absent, for despite his more than three score years he was just as witty in telling a story and as spry in dancing a hornpipe as a young man of 20. There is some solace, however, in knowing that he still has some farm land in the vicinity which will claim his attention for a while yet.

AUTO TRIP TO THE EAST

Mr. and Mrs. G. S. Ouimet left on Monday by auto for a trip to Ontario and the Maritime provinces. They will visit at various points on the way and plan making a short stay with relatives at Unity, Sask. Mr. Ouimet stated that he had made no definite plans as to where he will settle on his return to western Canada. He may rest assured of a hearty welcome should he decide to return to Coleman.

HON. O. L. McPHERSON

ALBERTA'S MINISTER OF WORKS

A hurried visit was made to this district last week by Mr. McPherson, and he states that a big program in Southern Alberta will put Lethbridge district in line of much travelling in 1929. Tenders have been called for the Lethbridge-Pincher section of the Red Trail connecting with the fine road through the Pass. Mr. McPherson went as far west as Crows Nest Lake, but did not stop in the town en route. Since Mr. McPherson's visit work has been progressing on the road at Crows Nest Lake and a great improvement has been effected in its condition, which is greatly appreciated by all who use the road.

Talk Peace To Have Peace

It is now fairly well recognized by students of international relations that one of the causes of war is to be found in the constant predictions of war, in references to "the next war," and surmises as to the varying forms which hostilities will take when men again take up arms against each other. Those who constantly predict war are, says a college president, "not simply reporters of probable events, they are actual causes of war, generally among the chief causes." That is, talk war and you have war.

Recognizing the correctness of this view, it is equally true that if the statesmen and leading men in all countries cultivate the habit of talking peace, instead of war, the world will have peace. "The oftener world peace is discussed among serious minded men and women," says a United States paper, "the better the prospect that war can be at last conquered," and it adds that the more intelligent leaders of democracy the world over can be brought together to consider steps for peace. As they gather from time to time at Geneva, the brighter becomes the prospect that ultimately—perhaps sooner than most of us now believe—war will be abolished.

War after all is largely a state of mind. Let the people of any country or country begin to take a pessimistic view of things and constantly harp upon business depression and hard times, and it is inevitable that depression and hard times will come. Equally true is it that when people talk prosperity and adopt an optimistic tone, a revival in business and industrial activity follows. If, instead of thinking of "the next war" and talking war, people think and talk peace, then peace rather than war will prevail.

It has been reported that the Supreme Court of the United States has settled one hundred disputes between States, and in Canada our Supreme Court and the Judicial Committee of the Privy Council, have settled numerous disputes between Provinces and between Provinces and Dominion. Why should not disputes between nations be settled in a like sensible way? There is quite as much justification for two States or two Provinces to declare war and fight at each other's throats as there is for two nations to take such insane action.

War is a stupid business. It settles no issues. It comes about when a little group of men get into a quarrel with another little group. The law does not allow individuals to murder each other because they have a quarrel, and international law should, in like manner, outlaw war as a means of settling disputes between nations. War between nations is evidence that the leaders in these countries have not sufficient intelligence or sufficient patience to find a way out, so they select the finest men on both sides and set them pounding each other into the mud and blood and blowing each other to bits. The side that can stand this the longer is the wiser and gets its own way. There is no reason employed in the settlement.

Sir Esmé Howard, British Ambassador at Washington, in a recent article said: "If it can be proved to a man that if his country goes to war for any issue short of its absolute liberty of action at home, and in defence of that liberty, he will in future stand a very good chance of being bombed in his home; if we can show him that even though his country may be victorious, he will certainly have his taxes increased by 200, 300, 400 or 500 per cent.; if we can make it clear to him that for the sake of some issue to which he is probably an entire stranger he risks having to give up that new Ford next month, or even worse, that he may very probably be thrown out of work, as has been the fate of millions in Europe after the last war; then perhaps he may find war less pleasingly dramatic and may bestir himself to see that as a means of settling disputes between nations, it is better abandoned. So far as statecraft is concerned, the fear of war is the beginning of wisdom."

Some people may be inclined to doubt the value of Peace Talks. Disarmament conferences and treaties between nations satisfying war, but the fact is there are all factors in educating people and helping to create and develop a peace consciousness in all countries. And, let it be repeated and emphasized, the creation of such a consciousness is the strongest of all guarantees for the maintenance of peace.

Due To Irrigation

There are now eight irrigation projects in Southern Alberta covering a total acreage of 400,446, of which 188,390 acres are irrigable. One of the projects, the Lethbridge Northern Irrigation District, reports having doubled its cropped area in the past two years, trebled its production and increased its population two and a half times.

Medical Aid Caravan

A medical aid caravan will circulate through Northern Alberta this year. It has been sent out by the provincial department of health and is in charge of Dr. R. T. Washburn, superintendent of the University of Alberta hospital.

The beam cast by the latest moon beacon is estimated at 500,000,000 candlepower.

When Pain Comes

What many people call indigestion very often means excess acid in the stomach. The stomach never has been over-stimulated, and food sourness. The corrective is an alkali, which neutralizes acids instantly. And the best alkali known to medical science is "Falling Milk of Magnesia." It has remained the standard with physicians in the 50 years since its invention. One spoonful of this harmless,

Beneficial School Grounds

Because of the co-operation of the forestry farms at Indian Head, marked progress in beautifying school grounds with trees has been made this spring. A total of 165,000 trees have been bedded in 167 school grounds throughout Saskatchewan. These included 67,700 maples, and 60,850 cypresses.

A man who had been asked to make his after-dinner speech as short as possible, arose and said:

"I am asked to propose the toast of Mr. Johnson, and I have been told that the less said about him the better."

A British scientist predicts that, in time to come, men will be born toothless. We thought, in our ignorant way, that they usually were born that way.

Testimonial alkali in water will neutralize instantly many times as much acid, and the symptoms disappear at once. You will never use cruet medicine when once you learn the efficiency of this. Go get a small bottle to try. "Falling Milk of Magnesia" is prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any druggist.

Tribute To British Flag

Union Jack Made Union Flag Possible Says South African Councillor

A great tribute has just been paid to the Union Jack, and satisfactorily enough from that country in which there has been some 224 mention about it—South Africa. A press despatch from there says that native affection for this flag was eloquently demonstrated at a General Council of the Transvaal Territory, which might be described as a native Parliament, when the Council unanimously passed a resolution that the Government be requested to permit the Union Jack to be flown with the Union of South Africa flag on all Magistrates' offices in the native territories. A Councillor asked the members not to discard their old friend the Union Jack, but to add to it the Union of South Africa flag which was the only flag they knew. He did not object to the Union Flag, but pointed out that were it not for the Union Jack there would be no Union flag. We might also venture to say that were it not for the Union Jack there would be no Canada as there is today.

FIGHTING FOR BABY'S HEALTH

Is the Constant Care of Every Young Mother

The young mother has a constant care in looking after the welfare of her little ones. Childhood ailments come on so sudden—sometimes within a minute's warning—the mother may have a very sick child on her hands before help can be obtained. That is unless she has a remedy in the house which she can give the baby for any of the many minor ailments of babyhood and childhood. Such a remedy is Baby's Own Tablets. Thousands of mothers throughout the country always keep a box of the Tablets in their homes, and they proclaim them to be without an equal for sweetening baby's stomach, regulating his bowels, and giving him out constipation and indigestion, colds and simple fevers, and making the dreaded teething period easy.

Baby's Own Tablets are an absolutely safe remedy. They are guaranteed to be free from opium or any other narcotic drug which are so harmful to the future welfare of the baby. Mothers, if you value the life of your little ones give him Baby's Own Tablets when he is sick, or, better still, give him an occasional dose of the Tablets to ward off illness. The Tablets are sold by druggists, or will be sent to any address, post paid, at 25 cents a box by addressing The Dr. Williams' Medicine Co., Brookville, Ont.

Tractors On the Farm

Western Farmers Investing More Heavily In Motors For Heavy Duty

There are in Alberta today 77,192 farmers who have 834 tractors, and, and 10,225 tractors. In Saskatchewan records show 116,762 farmers with 1,199,566 horses, and 24,367 tractors. Manitoba has 51,200 farmers with 355,480 horses, and 10,838 tractors. The survey would indicate that while the horse is yet far from being a back number on Western Canadian farms, the day of the tractor has definitely arrived.

Spare the children from suffering from worms by using Miller's Worm Powders, a most effective remedy with which to combat these insidious foes of the young and helpless. It is an entirely natural remedy, and when its qualities become known in a household no other will be used. The medicine acts by its purgative and purgative to assist it, and so thoroughly that nothing more is desired.

Parachute Lands Plane Safely

Invention Of California Man Proves Feasible In Test

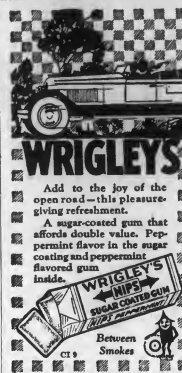

A small biplane has been landed safely from 2,000 feet by means of a huge parachute, without injury to its pilot or damage to the plane. The experiment, performed privately at Tracy, Cal., was designed to prove the possibility of using a parachute for disabled planes to insure safety of passengers. A Jenny biplane, piloted by E. J. McKown, was used in the test. The plane dropped about 2,000 feet with the motor idle, when the huge parachute, more than 100 feet in diameter, opened out. McKown stayed with the ship as its speed rapidly slackened. He did not feel any slight jar when the plane landed and the folds of the parachute enveloped him. The biplane was not damaged except for a minor bend in the tail skid.

The parachute is the invention of Charles Roderick, San Francisco, who with numerous other airmen, expressed complete satisfaction over the result of the experiment.

Special delivery stamps are manufactured for 10 cents per thousand.

A reliable antiscipic—Mihard's.

W. N. C. 178

Progress Has Been Made

Sending Messages By Beam System In Marvel Of Speed

What beam wireless has done for long-distance communication was explained by J. H. Thompson, chief engineer of the Marconi Wireless Company, to the members of the Montreal branch of the Engineering Institute of Canada, recently. Tiding slides, the speaker produced a graphic picture showing a telegraph operator at Drummondville, Quebec, using an instrument resembling an ordinary typewriter and sending messages at the rate of 150 words in a minute, to be received almost instantly by an operator at Dorchester, England.

Mr. Thompson illustrated the progress made in wireless transmission by showing the crude instruments used in the early days of wireless, the progress having been so rapid that equipment of stations used 15 years ago is of no use today. The beam system itself, he said, was the result of experiments by which all the energy available at the sending station was successfully sent in one direction thus establishing a beam of energy.

Seed Growing In B.C.

Industry On Vancouver Island Rapidly Increasing In Importance

Seed growing is one of the latest industries to develop on Vancouver Island, and is steadily increasing in importance. Vancouver Island sweet pea seed sells on the English market from three to four shillings per pound more than the California seed. The largest sweet pea seed farm is at Duncan which produces yearly about two tons. From 15 to 20 women are employed each year to pick, clean and pack the seed whose excellence and high quality is becoming world-famous.

When Holloway's Corn Remover is applied to a corn it kills the roots of the callus which comes out without injury to the flesh.

B.C. Grows Bermuda Onions

Bermuda onions have been successfully introduced into British Columbia, and will be grown for the early markets from next imported from the Southern States. Last year eighteen acres were planted at Kelowna in an experimental way with satisfactory results. The onions cured well and yielded eight tons per acre. The acreage has been greatly increased this year. The crop should begin to move to market about July 1.

Some men are sentenced to hard labor for life and some do it of their own accord in order to make ends meet.

ECZEMA IN HANDS Troubled For Three Years. Healed by Cuticura.

"I was troubled with eczema on my hands for three years. It appeared in a rash and then formed blisters. It troubled me much worse in winter so I could hardly put my hands in water or be near heat. My hands were terribly inflamed and disfigured. I had to wear old gloves to keep from scratching."

"I saw Cuticura Soap and Ointment advertisement and sent for a sample. I used it and it did me good. I bought more and after I had used them for three months I was healed."

BIGRED Miss Beatrice Allen, Highwater, Que. Use Cuticura Soap, Ointment and Talcum for daily toilet purposes. Send for sample to Dr. J. C. Allen, 1000 St. John St., Montreal, Que. or to Dr. J. C. Allen, 1000 St. John St., Montreal, Que. or to Dr. J. C. Allen, 1000 St. John St., Montreal, Que.

OCEAN STEAMSHIP SERVICE

White Star Line Paying Particular Attention To The Canadian Trade

The importance of the Canadian route was a point strongly emphasized by Lord Kylesant at the annual meeting of the White Star Line held in London, Eng., on May 18th, according to cable despatches to the White Star Line in Montreal.

Lord Kylesant, chairman of the Board of Directors, and an outstanding figure in world shipping, recalled the days of 1871, when the S.S. Oceanic inaugurated the White Star Line Steamship Service across the Atlantic, and from that date he traced, by progressive steps, the development of the company.

The shareholders of the company now number about 15,000, he said, "and after providing for the depreciation of the fleet, and paying the dividend on the preference shares, we recommend a dividend of six per cent. on ordinary shares and the balance carried forward."

"There was," he said, "a slight increase in the number of passengers travelling to and from the United States of which we secured a fair share," and from this point he went on to state that "we have, for some time past, been giving our most serious consideration to the important question of the construction of a new ship which we intend to use to continue to maintain the position and traditions of the White Star Line in the North Atlantic trade."

Lord Kylesant announced that the company has under construction at Belfast a "superliner" motor vessel of over 26,000 tons which we expect to put into commission in the fall of 1929. She will be not only the largest passenger ship engaged in the New York to Liverpool route, but also the first motor passenger vessel to be placed in that service.

"We have," he continued, "given particular attention to the requirements of our regular service from Liverpool to Quebec and Montreal, in which we have placed the new Laurentic, we have established a service from London, Havre and Southampton to Quebec and Montreal, so as to cater more especially to south of England and continental passengers travelling to and from Canadian ports on this service."

"From Canadian ports we have placed the Atlantic and the Megantic, the former vessel being the largest ship to Montreal."

After mentioning that the White Star Line has transformed the Adriatic 24,500 tons, into a cabin steamer, thereby having the largest cabin steamer in the world, Lord Kylesant dwelt on the importance of the tourist trade in the shipping business, and said that this accommodation has enabled many with the desire to travel, but who, previously, had not been able to gratify their wishes, to realize their ambitions.

"The White Star Line," he continued, "is carrying a larger share of this class of travel than any other company. Passengers in this tourist category are assured comfort and good catering combined with exceptionally low rate of passage money for the return voyage."

In dealing with the emigration question, Lord Kylesant said that "shipping companies engaged in trans-Atlantic travel are doing a great deal of good by bringing emigrants from Great Britain and Ireland and other countries in Europe, but the United States immigration restrictions have reduced this traffic to comparatively small proportions."

"The Dominion of Canada also has imposed regulations upon immigration from the continent. The flow of emigrant traffic across the Atlantic has been thus much curtailed and a valuable source of revenue for vessels adapted to carry large numbers of emigrants has been greatly diminished. We hope that in time, restrictions may be considerably modified, at least in favor of settlers of British stock."

Mr. Derek Oldham, the English actor, is telling a good story against himself. One day recently he was in a train, black and was sitting in his car practising singing scales. He did not realize that the windows of the car were down, and he suddenly became aware that a taxi-driver was looking at him in a queer way. Turning to Mr. Oldham, the taxi-driver, the taxi-man shouted out, "Lammer, I thought summat 'ud gone wrong with your exhaust!"

A man could learn a great many things if he didn't think that he already knew them.

For Average—use Mihard's.

Swedish Air Service Safe

No Damage Or Loss In Three Years Of Operation

Three years of operation without an injury to a passenger or damage or loss to merchandise or mail is the record of AB Aerotransport, the corporation that carries on all commercial aeronautics in Sweden. The company has just announced that during this year 622 of the 640 planned trips were performed. It is subsidized by the government, and conducts regular air service during the summer months, between Stockholm, Helsingfors, Malmo and Amsterdam, and as a German concern in operating the latter line from Stockholm to Berlin. The company probably will become a stage of the London-Leningrad line.

The Oil For the Athletic:—In rubbing down, the athlete will find Dr. Thomas' Electric Oil an excellent article. It renders the muscles and sinews pliable, takes the soreness out of them and strengthens them for strains that may be put upon them. It stands pre-eminent for this purpose, and has been used for years, having been used it can testify to its value as a lubricant.

Increase In Acreage

Increase in acreage of every grain in the Lethbridge Railway division, with an increase of over half in rye, is shown by the first crop report of the Canadian Pacific Railway.

The only thing a man wants, after he gets all the money he needs, is more money.

How Much Water Should Baby Get?

A Famous Authority's Rule

By Ruth Brittain

Baby specialists agree nowadays, that during the first six months, a baby should have three ounces of fluid per pound of body weight daily. An eight pound baby, for instance, needs twenty-four ounces of fluid. The rule is two ounces of fluid per pound of body weight. The amount of fluid absorbed is a great deal more than is determined by weighing him before and after feeding for the whole day, and it is easily calculated for the bottle fed one. Then make up any deficiency with the breast milk.

Giving baby sufficient water often relieves his feverish, crying, upset and restless sleep. It regulates baby's bowels, a few drops of Fletcher's Castoria. For these and other ills of babies and children, it is a great relief. It is a safe, reliable, and pleasant remedy. It is a safe, reliable, and pleasant remedy. It is a safe, reliable, and pleasant remedy.

Just a word of caution. Look for the signature of Chas. H. Fletcher on the packages so you'll be sure to get the genuine. The forty-cent bottles contain thirty-five doses.

WOULD AMEND THE DOMINION ELECTIONS ACT

Ottawa.—Parliament will address itself next session to the amending of the Dominion Elections Act if the report of the committee on privileges and elections is adopted by the House of Commons.

The committee, under the chairmanship of J. J. Denis, Liberal, Joliet, considered their report, the fruit of several weeks of investigation into the Athabasca elections of 1925, where an inquiry by Mr. Justice Clarke, of Edmonton, established that corrupt and illegal practices had taken place.

The committee will recommend to the House that since the report of Mr. Justice Clarke discloses that the cause of the corrupt practices in Athabasca was due to the partisanship, ignorance and incompetency of certain election officials, the auditor-general should submit to the Department of Justice a full statement of the payments made to the aforesaid officials with a view to instituting proceedings for the recovery of the amounts so paid to such officials, if the law provides for such action.

It is also recommended that a special parliamentary committee be appointed next session to examine the evidence and deliberations of the present committee on privileges and elections, to study the Dominion Elections Act and to give special attention to the method of selecting returning officers and the preparation of voters' lists.

Further, it is urged that the chief electoral officer should recommend to the proper authorities that prosecutions be taken against the returning officers of the Dominion Elections Act.

Civil Aviation In Italy

Development Is Rapid and Country Holds Third Place In World
Rome, Italy.—Italy now ranks as the third country in the world for civil aviation. It comes immediately after Germany and France, in the order given, and is ahead of England, which occupies fourth place.

By the end of 1925 Italian air routes will total 2,215 miles, over which daily passenger service in either direction will be effected. The whole field of civil aviation, ever since Italo Balbo became Under Secretary for Air, has been developing at such amazing speed that many miles already have been added to the total number of air routes.

Vote Sum For League

Ottawa.—The House passed a vote of \$155,968 for Canada's contribution to the League of Nations. Hon. Hugh Guthrie brought up the question of German currency, held by the Canadians, which had been repudiated by the German Government. The Prime Minister pointed out that before the Government could do anything in such a case it would have to consider the whole question of currency, which would be very difficult indeed.

To Aid Mental Hygiene Research

Ottawa.—The Laura Spelman Rockefeller Memorial, through John D. Rockefeller, has announced its intention to assist mental hygiene research in Canada by the grant to the Canadian National Committee for Mental Hygiene of \$150,000 to be spent during the next five years. This is conditional upon the raising from Canadian sources of an additional \$250,000 during the same period.

Rumor Is Denied

Winnipeg.—Rumors in circulation to the effect that he had been offered the presidency of the University of Alberta were denied by Hon. John Bracken, premier of Manitoba. "The rumors are without foundation," he declared.

Complain About Expenses

Ottawa.—Complaints of Canada House were heard in the House when a vote of \$70,000 for contingencies and \$39,000 for salaries for the high commissioner's office in London were under discussion. After considerable debate, the item carried.

Turko-Italian Treaty

Rome.—Premier Mussolini and the Turkish Minister Süat Bey, have signed a five-year bilateral treaty binding Italy and Turkey to neutrality, arbitration and conciliation.

Tornado Near Kansas City

Kansas City, Mo.—A tornado struck Englewood, a suburb between here and Independence, Mo. Two street cars were reported wrecked. Ambulances were sent to the scene.

W. N. U. 1736

Operate On Cost Basis

Alberta Wheat Pool Elevators Adopt New Policy

Calgary.—Wheat Pool elevators in Alberta will be operated on a cost basis to patrons. This decision was reached by a full attendance of Pool delegates in convention here.

The new policy laid down will represent something new in co-operative effort in Canada, if not in the world. It means that the members will be charged only the bare cost of operating the elevator facilities.

When they haul their grain into Pool houses no service or elevator charges will be made. At the end of the fiscal year the actual operating cost will be available and will be deducted from the final Wheat Pool payment.

This change in elevator policy was recommended to the delegates by the directors. The proposal was to eliminate handling and service charges upon delivery of the grain to the Pool elevator and deduct the actual operating cost on a per-bushel basis from the final Wheat Pool payment.

Would Provide Work For Ex-Service Men

Resolution Favors This As Best Memorial To Earl Haig

London.—The ex-service men at the British Legion conference passed a resolution to the effect that the best tribute that could be paid to Earl Haig would be providing work instead of relief for ex-service men. Lady Haig was present and said this would have met with the approval of her husband, whose desire would have been not a statue of himself, but that the men who had fought in the war should be helped.

It is understood that the resolution and Lady Haig's remarks were not intended to depreciate the value of a national memorial to the late Field Marshal, which the Government is now considering.

British ex-service men will attend the conference of ex-service men, including former enemies, to be held at Luxembourg next September.

Inspection Satisfactory

Objection To Examination Of Immigrants Over Canadian Doctors' Unaided

Toronto.—"We have examined every single objection that has been raised against the examination overseas by Canadian doctors of assisted passage immigrants and we have not found that will hold water," declared Dr. David Clark, assistant Deputy Minister of the Department of Natural Health, in an interview here.

Articles appearing in certain sections of the British press against the policy of having Canadian doctors conduct examination of immigrants were full of inaccuracies, he said.

"The causes of a decrease in immigration to Canada this year," continued Mr. Clark, "lie deeper than the medical inspection policy. One of the causes for the decrease of immigration from Britain, he felt, was the feeling of increasing optimism there."

Replace Provincial Police

R.C.M.P. Have Taken Over Work Of Saskatchewan Force

Saskatoon, Sask.—The Saskatchewan Provincial police force passes into the pages of history of the northwest, their activities being taken over by the Royal Canadian Mounted Police, the Saskatchewan sub-division being under the direction of Inspector John Kelly, who transfers from the disbanded force to the "scarlet riders." Some other members of the S.P.P. will join the R.C.M.P., while the following members of the latter force, located at the Saskatoon detachment for some time, will carry on: Sgt. A. Drysdale, Detective Sergt. C. E. Hildyard, and Constables T. Theriault and P. W. English. The first two have a long service record in the force, dating back to the old Northwest Mounted days.

Inquiry Is Ordered

Ottawa.—The parliamentary immigration inquiry has approved a motion for a return showing all special immigration permits issued from January 1, 1920. The report will show the number of permits, officially termed letters of admission or assurance granted to members of parliament and others.

Appoint Conciliation Board

Ottawa.—A conciliation board has been appointed to investigate the carpenters' strike in Calgary. Mr. Justice Clarke will be chairman. James H. Gordon will represent the employers, Robert Hewitt, the men. The men are asking for an increase of 12½ cents an hour.

U.S. Honors War Dead

Thousands Attend Memorial Service At Arlington Cemetery, Washington

Washington.—The White Crossed rolling hills of Arlington beamed thousands of citizens, soldiers and sailors of the national capital for the annual memorial service, May 30, at the graves of the fallen heroes of all wars.

For the first time since he entered the White House, President Coolidge led the nation in memorial day exercises outside of Washington. His annual tribute was paid in an address near the spot where Abraham Lincoln made his immortal address in Gettysburg, Penn.

Practically the entire day was set aside for services arranged by patriotic and veterans organizations. A feature was a parade of veterans of all wars through the downtown streets and over to Arlington. Sir Bruce Howard, British ambassador, and Hon. Vincent Massey, Canadian minister, took part in the exercises in Arlington cemetery, where they decorated the graves and the Cross of Sacrifice erected by the Canadian Government in memory of Americans who died while serving as members of the Canadian corps.

POOR SALARIES PAID SCIENTIFIC AGRICULTURISTS

Ottawa.—A motion to go into supply in the House of Commons prompted C. G. Coote U.F.A., Macleod, to protest that salaries paid to men in the scientific and technical positions of the department of agriculture were inadequate.

Mr. Coote declared that the department of agriculture was losing the professional men because of the low salaries which were paid. He gave a comparison between salaries paid in the United States service and in the Canadian to illustrate the fact that Canada paid much less than the U.S.

The professional service of Canada said Mr. Coote, must compete with that of the U.S. for men. As things now stood many Canadians went to the U.S. to take post-graduate university courses. Frequently they remained there because of the fact they could obtain more money in that country.

Mr. Coote compared salaries paid in the cereal division of agriculture with those paid in the geological survey. The figures he quoted showed that the salaries in the cereal division were lower. Canada could not afford to lose her scientific agricultural men, he declared. Agriculture was Canada's basic industry and wheat growing was the most important phase of that industry.

J. B. Steedman, Liberal-Progressive, Souris, declared the question of the salaries paid to scientific agricultural men was one of the most important matters which had come before the house this session. It should be realized that the prosperity of Canada depended largely on her agriculture, yet the ravages of disease were spreading in certain quarters of agricultural Canada, and it was of prime importance to the Dominion as a whole that adequate salaries be paid our scientific agricultural efforts so that their research efforts could be used for the benefit of agriculture in this country.

May Receive Appointment

The possibility that a Canadian judge will take the place on the permanent court of international justice of The Hague left vacant by the resignation of John Bassett Moore, of the United States, is now openly acknowledged in well-informed circles at Washington. Already, it appears, the name of Mr. Justice Riddell, of Toronto (above), as well-known alumnus in the United States as in Canada, is mentioned as a likely successor to the American jurist.

Bill Defeated In Senate

Government Measure To Amend Naturalization Act Thrown Out In Upper House

Ottawa.—The Government bill to amend the naturalization act was killed in the Senate.

The bill would have placed authority for the granting of naturalization certificates in the hands of the secretary of state without his being necessary for the applicant to make prior application to court, as now required.

The bill met stormy opposition in the Commons.

It was discussed at some length by the Senate recently in committee of the whole. Eventually Senator Laird moved that the committee rise. The effect was to kill the bill.

Senator Dandurand, Government leader, explained the measure, which he said would simplify procedure and prevent abuses. "The state department had a well-trained staff to handle the work. Experience had shown that court inquiries on naturalization were absolutely useless."

A Martyr To Science

Noted Doctor Is Latest Victim Of Scientific Research

London.—News was received here of the death of Dr. William Alexander Young, director of the Gold Coast Colony, Africa. Dr. Young was a co-worker with Dr. Hideo Noguchi, before the house this session. It should be realized that the prosperity of Canada depended largely on her agriculture, yet the ravages of disease were spreading in certain quarters of agricultural Canada, and it was of prime importance to the Dominion as a whole that adequate salaries be paid our scientific agricultural efforts so that their research efforts could be used for the benefit of agriculture in this country.

Young was of Scotch descent and had a long experience with tropical diseases. In 1924 at the comparatively early age of 35 he was appointed to his present position.

Plane Service Cuts Two Days

Pilot J. H. St. Martin accepts the first shipments of parcels by the new Canadian Pacific air-express service. Bi-weekly in each direction between Toronto, Ottawa, Montreal and Winnipeg, where the airplanes are not, the service cuts two days off the regular schedule. Domestic traffic between the cities mentioned is also accommodated to time-saving advantage.

Record During March For Canadian Roads

Railways Carry More Freight Than In Any Previous March

Ottawa.—The Canadian railways carried more freight during March, 1926, than in any previous March. Gross revenues also were the largest earned in March, exceeding those of March, last year, by \$2,135,479, or 53 per cent. Although operating expenses were heavier than in 1927 by \$1,252,220, or 3.9 per cent, net revenues were larger by \$883,259. The large carry-over of grain has been an important factor in the heavy traffic and earnings of the railways during the first quarter of 1928, the movement of grain to the Pacific ports being particularly heavy. The March payroll was heavier than in 1927 by \$1,037,133, and the average number of employees increased by 3,022.

The Canadian National Railways increase in gross revenue, compared with March, 1927, was \$736,717, or 4.5 per cent, for an increase in freight of four per cent, and a decrease in passenger traffic of 6.3 per cent.

The Canadian Pacific Railway gross returns for March were heavier than 1927 by \$1,353,138, or 8.8 per cent. Passenger and express revenues showed decreases, but all other accounts were larger, freight by 12.5 per cent.

Has a New Mission

Premier King Requested To Arrange For Necessary Railways To Ensure Good Crops

Ottawa.—Premier King has a new mission. The latest request is that he shall appoint himself rain-maker extraordinary to Saskatchewan.

"We have had a wonderful seeding time and everything is now in the ground in good shape," runs a letter from Saskatchewan, which Senator Laird read in the Senate recently. "I wish you would draw the attention of the Prime Minister to the desirability of arranging for a copious supply of rain each week for the next three weeks, and we will guarantee to deliver the greatest crop Western Canada has ever produced."

Ontario Joins Manitoba

In Legal Fight With Federal Government Over Regulation Of Securities

Toronto.—Announcement has been made by Hon. W. H. Price, Attorney-General for Ontario, that the province is joining with the province of Manitoba in the latter's legal fight with the Dominion Government over the question of certain rights in connection with the regulation of securities.

Edwin Bayly, K.C., Deputy Attorney-General, will leave for England June 15, and will appear with Hon. W. R. Craig, K.C., counsel for Manitoba, when the case is heard by the Privy Council early in July.

COOLIDGE MAKES STRONG PLEA FOR WORLD PEACE

Gettysburg, Pa.—In the first speech to be delivered by President Coolidge at the Gettysburg battle field since Lincoln's immortal address, President Coolidge, in connection with the Memorial Day exercises, voiced a plea for the abolishment of war as the fittest tribute to the war dead of America.

At the same time he demanded less indifference to crime in the U.S. and commended what was described as a tendency of the legislatures to exceed the powers granted to them by the constitution. These things, he said, tended to weaken the regime of law and breed turbulent populations, prone to war.

Declaring the "one thing we want above all else for ourselves and for other nations is a continuance of peace," Mr. Coolidge reviewed negotiations by the state department for treaties against war and for arbitration treaties.

The Briand proposal that the United States and France sign a treaty to renounce war was described by the President as having developed into "one of the most impressive peace movements that the world has ever seen."

"It is my earnest hope that success may crown the negotiations now in progress and that the ideals which have inspired the French minister of foreign affairs and the secretary of state of the U.S. in their joint efforts to find a solution of the problem of peace, may find a solution of the problem of peace."

FLAG QUESTION CAUSE OF RIOTING AT CAPE TOWN

Cape Town, South Africa.—Reinforcement of police from all parts of the peninsula were drafted into Cape Town to cope with the threatening situation which developed when a demonstration, said to have been instigated by unrest among colored workers, ran counter to the celebration of the 18th anniversary of the establishment of the Union of South Africa.

The celebration was historic because for the first time the new national flag was flown along with the Union Jack, and Premier J. B. M. Hertzog and General Jan Christiaan Smuts, former premier and present leader of the opposition, appeared on the same platform and delivered patriotic speeches.

Scenes witnessed were re-enacted when excited crowds filled the streets and several violent incidents occurred. Colored people were prominent in the demonstrations and automobiles carrying miniatures of the new Union flag were partially wrecked, but vehicles which carried miniatures of the Union Jack were not touched.

The police were forced to charge the mobs several times. A dozen police and a large number of colored people were injured, while 90 persons were arrested.

In his address at the celebration Premier Hertzog said the new flag was a "lasting symbol of the independence and authority of the power and existence of the South African nations."

Referring to the flying of the new Union flag alongside the Union Jack, General Smuts declared the two emblems entwined symbolized the equality of the races and the indissoluble brotherhood which had flowered out of the enmities and struggles of the past.

Stops Operations Of Bogus Stock Salesmen

Ontario Government Has Put Many Out Of Business

Toronto.—More than one hundred brokers, of doubtful repute, and high-pressure security salesmen have been put out of business recently as the result of the clean-up campaign inaugurated by the Ontario Attorney-General's Department when the Securities Fraud Prevention Act was put into force recently.

According to the department some of the offenders have been jailed, others are out on bail pending appeal and a majority have been deported to the United States, from whence they came.

Receive Degrees At McGill

Honorary Degree Conferred On Five Distinguished Candidates

Montreal.—The honorary degree of Doctor of Laws was conferred on five distinguished candidates at the 1928 convocation of McGill University.

The recipients were: Sir Wilfred Grenfell, famous Labrador missionary and surgeon; George J. Taylor, William Reid Blair, director of the New York Zoological Park and a graduate of McGill; George Isles, writer, and Julian C. Smith, financier.

Sir Arthur Currie, principal, had not sufficiently recovered from his recent illness to be present.

Princes Plan African Trip

London.—The Prince of Wales, who plans a tour of Africa next autumn, will be accompanied by the Duke of Gloucester (Prince Henry), and the Royal brothers will be absent for four or five months. The date for the departure has not been set, but it is their aim, after visiting Mombasa, Kenya, Uganda, Tanganyika, and Rhodesia, to spend Christmas in Cape Town.

Inmates Of Canadian Prisons

Ottawa.—Canadian penitentiaries have at present a total of 2,580 inmates. Of this number, 2,539 are men and 41 are women. Canadian born number 1,814, and in all 48 nations are represented. This information was given in the Senate in reply to a question by Senator J. P. B. Casgrain.

Against Fast Time

Vancouver.—Vancouver residents will continue for the remainder of the year to work and play on standard time. By a vote of more than four to one the citizens today voted against adoption of daylight saving time for the summer months.

Germany has a shortage of skilled labor.

THURSDAY, JUNE 7, 1928

Origin of Crows Nest

Many living here may have wondered how the name
given to the magnificent mountain from which the entire
district takes its name originated. A very interesting book
published by the Geographic Board of Canada entitled
"Place Names of Alberta" furnishes the following descrip-
tion.The present Crowsnest mountain is in lat. 49 deg, 42',
long. 114 deg. 35'. The original mountain, however, to
bear the name may have been some 18 miles further east
according to a statement of Mr. R. N. Wilson, for many
years Indian agent on the Blood Indian reserve, who
writes (1918):--"About 22 years ago the aged Blood chief, Ermine
Horse or Blackfoot-Old-Woman, guided me to the scene of
the murder of two white miners, by himself and some compan-
ions in his early life. He had stated that it was a crow's
nest but, to my surprise, headed for a high, isolated and
prominent hill standing between the Porcupines and the
Rockies, and some few miles north and east of the Eastern
entrance to the Crow's Nest Pass. He said this is what
the Indians called the Crow's Nest (literally speaking, the
raven's home) pointing to the timbered, rocky top. I
questioned him about the pass and what the whites call the
Crow's Nest mountain, to which he replied, that perhaps is
the white man's talk. We Indians know but one Crow's
Nest and this is it, and waving his arm about, all Indians
refer to this locality as the Crow's Nest country, which
would account for the name being extended to the neigh-
bouring river and pass.""Crowsnest; mountain, also lake, pass, river and
village; the name of the mountain is a translation of the
Cree Indian name kah-ka-ko-wut-thist-n and of the
Blackfoot name ma-sto-eas, literally 'the nest of the crow
(or raven)'; it does not commemorate the slaughter of
Crow Indians by the Blackfeet when they got them in a
corner or 'nest' as set forth in local tradition, but merely
the nesting of crows. The first mention of the name is in
a report dated 15 December, 1858, of Capt. Blakiston of the
Palliser Expedition, who writes:--'I have not mentioned
the existence of two other passes across this portion of the
mountains, called the Crowsnest and Flathead Passes. The
Crowsnest Pass, of which I have marked the general direc-
tion on the plan, follows up Crowsnest River, a tributary
of Belly River, into the mountains, and gains the west side
near 'The Steeples.' By report of the natives it is a very
bad road, and seldom used. I observed the old trail com-
ing from the plains on the left bank of Crowsnest river."
"The Crowsnest" mountain is shown on the Palliser Ex-
pedition map of 1865."

Letting the Tourist Know!

A very fine tourist edition of the Calgary Herald was
published this week, extolling the attractions of Alberta
from the motorists' viewpoint, and miles and miles of auto
routes were shown on maps, with illustrations of points of
interest. But the publicity which the Crows Nest Pass
and the Red Trail (Trans-Canada) received was nil. All
roads on the maps published in the edition showed Calgary
as the hub of the main auto roads throughout the province.
Of course, Calgary and The Herald cannot be blamed for
using this method of presenting that city's claims for tourist
traffic. They are out for business and spending their
money to secure it.It emphasizes more clearly the point that The Journal
has stressed on various occasions, that the business men in
the towns on this southern Alberta section of the Red
Trail must do their own boosting if they are to get the
benefit of tourist traffic. Fernie is equally interested in the
movement, or should be, and organized effort is very essen-
tial in order that the attractions of the Crows Nest Pass
route through the Rockies be placed before tourists. This
part of the country—to use a slang phrase—has the goods
to deliver, but the tourists have got to be shown. And we
must show enthusiasm if we are to interest others.The town of Coleman was named in 1904 by Mr. A.
C. Flumerfelt, president of the International Coal & Coke
Co., Ltd., after his youngest daughter.With a definite object in view, Coleman Board of
Trade will have an incentive for further effort. There is a
lot of publicity work to be done by all towns on the "Crow"
route through Southern Alberta to secure its share of tour-
ist traffic, which means dollars and cents to all lines of
business. Tourist traffic now represents a source of revenue
to the Dominion, second only to Agriculture, and it is worth
catering to and going after.Enthusiasm will make many a hard job easy. The busy
man is usually the most likely man to get something done.

Here and There

(79) The Rocky, Mountain Lakes fish-
ing season was opened recently
with a catch of a thirty-two pound
lake trout by George Andrews of
Banff, in Lake Minnewanka. A
number of others of not such a
great weight were caught by guests
of the Banff Springs Hotel.The month of April was the most
successful so far this year from the
standpoint of families settled, ac-
cording to a statement issued by
the Canada Colonization Associa-
tion. During the month 81 families
were settled throughout the Domini-
on on 19,249 acres of land, bring-
ing the total of settlements from the
first of the year up to 224 on
46,207 acres.There are in Alberta today 77,192
farmers who have 834,224 horses in
use and 10,225 tractors. In Saskat-
chewan records show 116,762 farm-
ers with 1,199,566 horses and 24,367
tractors. Manitoba has 51,210
farmers with 356,480 horses and 10-
833 tractors. The survey would
indicate that while the horse is yet
far from being a back number on
Western Canadian farms, the day
of the tractor has definitely arriv-
ed.Miss Jean Cameron, who came to
her parents from England at the
age of four, at ten commenced
draping in the district of her
father's homestead. Today, at the
age of 21, she finds it quite inter-
esting and congenial pursuit, and
she follows to any occupation
which would keep her in the city.
She operates a trap line within a ten
mile radius of her house and her
line includes coyote, lynx, weasel
and fox.A record passage by a freighter
and one that has only been expected
of a passenger ship was recently
accomplished when the Canadian
Pacific Cargo steamship Beaver-
burn docked at the Surrey Commis-
sioner's Dock, London, nine days after
leaving Montreal. The trip was the
first of Montreal of one of the new
"Beaver" vessels and this record
will be clipped by from twelve to
fifteen hours now that the Beaver-
burn and vessels of her class are
routed via the Straits of Belle Isle.Seed growing is one of the latest
industries of Vancouver Island of
steadily increasing importance.
Vancouver Island sweet pea seed
sells on the English market from
three to four shillings per pound
more than the California seed. The
largest sweet pea seed farm is at
Duncan, which produces yearly
about two tons. From 15 to 20
women are employed each year to
pick, clean and pack the seed, the
excellence and high quality of which
is becoming world-famous.All the sport of fishing with a
minimum of destruction of fish was
realized recently when a party of
four members the Irish Walton
League of America enjoyed a tour-
nament's salmon fishing on the Saint
River, New Brunswick. The party
took 150 salmon and returned them
all to the water except twelve. The
fish ranged from 25 pounds to an
average of fifteen lbs and were
taken with barbed hooks and
streamer flies. Very fine sport was
enjoyed but the fish were in no way
injured, when returned to their ac-
tive stream.

A Word for Ourselves

Merchants! See that your station-
ery is printed in your local printing
office, and not in outside offices. To-
ronto or Winnipeg offices do not fur-
nish employment to local people, and
besides how can one set the example
of dealing at home if their own sta-
tionery bears the imprint of a city
house?ANDRE WAGON

Coleman Band In
Calgary Competition

Will Enter Contest of Western
Bands for Honors at Calgary
Exhibition and Stampede

Coleman Town Band will enter in the contest to be held at Calgary exhibition July 9-14. The contest will be held between 10 and 12 a.m. on Monday, July 9. First prize is \$225, second \$150, third \$100 and fourth \$75. Coleman band is confident of getting in the prize money class, and have set themselves diligently to work practicing the test piece, "Western World," an overture, and one selection of their own choosing. The band is to be commended for its enterprise in entering the contest, and no doubt it will help considerably in creating local interest in the big exhibition and stampede at Calgary.

The band will give a concert on the Sunday prior to leaving for Calgary, at which the test piece will be played.

Cardston to Have \$50,000 Hospital

Announcement is made by the Department of Indian Affairs that a hospital costing in the neighborhood of \$50,000 will be erected in the town of Cardston. Construction work will start very shortly on this building which is intended for the benefit of the Blood Indians in that section of the Province.

2 Coleman Student Achieves
Distinction

Fred Antrobus received the results of his examinations at McMaster University, this week. The report showed that he had made ten firsts and two seconds in the examinations and also won the William Craig Scholarship in New Testament, which was the only one offered for his year in theology.

The United Church

The Rev. G. W. Griffiths, of Cowley, who is a singer and preacher of long service, first in his native Wales, then in the United States, where he took his training and graduated, will preach and sing on Sunday evening. It will be remembered that Mr. Griffiths was chairman at the St. David's Day celebration this year at Hillcrest. All are cordially invited to this service. The hour is 7 o'clock.

St. Alban's Church, Coleman

The W. A. meets on Thursday at 7.30 p.m. and the Junior W. A. on Friday at 3.30 p.m. The J. W. A. will hold a tea and pantry sale on Saturday in the parish hall.

The church has been presented by the J.W.A. with a beautiful hymn board and two dozen new prayer books.

Those desiring to register for the summer school at Benf on July 10 should do so at once, using the forms on the folder.

T. Brennan, truant officer, submits the following report for May: 47 reported absent by teachers, 44 homes were visited to check up absentees. Six of these were truant, but are back with the other 38, so there remains only three absent through sickness.

Coleman Elks are planning a monster carnival for July 21-23-24 in aid of the swimming pool and skating rink funds.

Capt. R. F. Barnes will leave shortly for Sarcee camp for the annual training period with the Canadian artillery.

While in Calgary over the weekend Mrs. Rippon enjoyed the novel experience of a trip in the Purple Line airplane.

Work on Road at Crows Nest

(Continued from Page One)

use as a popular route for tourists. For 145 miles between these two towns there is a splendid all-weather highway on which hundreds of thousands of dollars have been expended, and it seems a pity that this two-mile stretch complained of should be left in its present condition.

That there is need for action by local authorities both in B.C. and Alberta section of the Crows Nest Pass is very evident if any improvement is to be effected this year. There has already been sufficient talk to occupy reams of paper.

Coleman Joins in Boosting
'Crow' Route

An enthusiastic meeting of the Board of Trade was held on Tuesday evening, presided over by Alex. M. Morrison, and was addressed by A. Baker, of the Western Canada Road Route Service. Various matters of local interest bearing on tourist traffic were discussed at length and a grant was authorized to aid in the publicity plans to more widely proclaim the attractions of the Crows Nest route as part of the Trans-Canada auto highway. A detailed report will appear in the next issue of The Journal.

Mr. and Mrs. Frank Graham (jr.) were called to Edmonton last week, the latter's father, J. W. Fraser, having been taken seriously ill. They will possibly remain there for a couple of weeks.

Mr. E. F. Gare, former publisher of The Journal, and who went from here to Vancouver, has recently moved to Govan, Sask., 60 miles north of Regina where he has purchased the Govan News.

PROVINCE OF ALBERTA

DEPARTMENT OF MUNICIPAL
AFFAIRS

NOTICE is hereby given that unless all arrears of taxes imposed in respect of any parcel of land situated in Improvement Districts Nos.

71, 106, 140, 128 and 131 in the Province of Alberta, are paid on or before the First day of July next, such land will be dealt with under the provisions of the Tax Recovery Act, being Chapter 122, Revised Statutes of Alberta, 1922, with a view to obtaining Certificate of Title in the name of the Crown in the right of the Province of Alberta in respect to such parcel.

W. D. Spence,
DEPUTY MINISTER
Edmonton, May 30th, 1928.

CHAPTER XXIV—Continued.

"I cannot see anything very clearly," said Jack, miserably; "I only know my wife has gone. Circumstantial evidence seems to be against her, but nevertheless I will do my utmost to find her. I will take her word against the world."

The magistrate laughed softly, but there was no mirth in the sound. "Have a drink, my dear young friend," he said, "and get your head clear."

"No, thank you," said Jack. "I do not drink, and I am pretty sure I will never forget her."

There was something in the young man's voice and in his face that made Col. Blackwood wonder if he had pursued the right course. Perhaps he should tell of her coming to him to find out about the marriage. Perhaps he should tell . . . No! The hell-cats!—she had been impertinent to him, and she had threatened him.

When Jack had gone the magistrate sat a long time, wondering. Then he went to the cupboard and poured himself a drink; another drink, Ah! that was better. Now he knew he was right; another drink and he was sure that he had done not only a wise but a noble thing in leaving the marriage unrecorded. After the third drink, he sat in a wretched haze, musing pleasantly on the time that young Jack Doran would come to him with tears standing in his eyes and thank him for what he had done. "You saved me, and though I should live a thousand years I shall never be able to thank you adequately," Sir! And he would reply—

"—Have done, my boy—have done: one brave man must ever help another!"

So the night wore pleasantly on.

CHAPTER XXV.

Not so pleasantly did the night pass with Jack Doran, who sat in the station waiting for No. 8 and listening to the wires telling their never-ending story—a dull, gray station, dusty even when the snow had covered all the dust. A red stove in the middle of the floor, egg-shaped, fluted, and either fissured or red hot according to the mood of the agent; two posters showing painted white steamers ploughing the sea and carrying pleasure-seeking Canadians to tropical lands, all for trifling sums; "and return;" a bill of sale, where instructions had been given to the auctioneer to spare nothing; the death of a woman; a bill of sale to sell; a stray notice re a bull pup answering to the name of "Buster;" with a reward; a dance and raffle at Bannerman by St. Patrick's Ladies' Aid, program and refreshments, and cordial invitation to all; "Save the Forest!" poster—"The forest is ours, let us keep it always," John Fernwald's announcement of his ability to mend

ATTENTION, WOMEN OF MIDDLE AGE!

Mrs. Goodkey Tells Her Experience with Pinkham's Compound

Byram, Alberta.—"The Change of Life was the trouble with me and I was run-down, thin, and weak and could not sleep. I had a poor appetite and could not do much work. I am taking Lydia E. Pinkham's Compound now and I feel like a new woman. I saw it advertised in the papers and tried it and Lydia E. Pinkham's Compound. I have recommended it to a lot of my friends. Mrs. Wm. Goodkey, Byram, Alberta."

W. N. U. 3738

shows, Old Country methods and moderate prices—try me once.

Jack came back to his own bitter thoughts, to which the telegraph wires made a weird accompaniment, ghastly and grim. He could see the instrument from where he sat, muttering, tapping, clicking with its mysterious finger, silent for a few moments, then convulsed and shaken with the desire to be reconnected. He thought of all the suppressed emotions, the heart-break, anxiety and fears the wires carried in dead silence along the miles, and how they break into strange tappings here, chokingly alive and articulate.

Life was like that, he mused, we all carry our load of emotions carefully hidden, but we cannot all throw it off at intervals in dots and dashes like the wires.

Reaching the city, Jack went to the Macdonald Hotel, where he met his mother, Mr. Keith, whom he had not seen since the night of the recruiting meeting at Peace River. They discussed their plans for the future.

"I am going to have our specimens assayed here at the University, and I will go at once to Victoria to file our claims," said Mr. Keith.

Jack told him briefly of his domestic trouble. "I believe she is here in the city," he said in conclusion, "and I will find her. I will not believe a word unless I hear it from her."

Keith whistled softly. "This is a bad work, boy," he said, "and I am sure you are the finest in the world or the worst. If they're not one thing or the other, when you begin to break off the coupons from your gold mines stock you'll have a flock of them pursuing you, anyway."

Jack was looking out at the wide view of the winter landscape, with the mountains, then covered with snow, winding away into the blue distance. "I don't want a rock," he said, "but I do want Heiml. If you know her, Keith, you would know she couldn't be crooked. She's full of wonder and like little girls, has eyes and is like."

"I don't believe there are any innocent girls these days," Keith replied, lighting his pipe for the twentieth time. "He never keeps his pipe going, and when he sat for half an hour in one place he had burnt matches strewn around him like confetti around a bride. Keith was a low-set man of very dark complexion, lauded now to a rich man."

"My own opinion is that you are well out of it, Jack," he continued; "but I'll admit I'm not judging of them. They can all fool me."

"I have never kept his pipe going," said Jack. "When I listened to that leaning on his crutch I wanted to go. The other old soak rather spoiled it, though."

"Coast! I liked him," said Keith, grinning. "He told us some of the richest stories I ever heard."

"I couldn't stand him and his stories," Jack said with warmth, "he's the sort that make war, he loves it. I can see that, but you'll notice he will never do any of the fighting. It looks as if the thing had to be finished up now that we are in it."

Keith was watching Jack closely even though he was so busy keeping his pipe going. "I'll certainly look after your interests, Jack, if you want to go. I'll file for you on everything I get while you're gone, and I'm going to get right after the potassium deposits and the oil as soon as I get the gold coined."

"I knew you would," said Jack, gratefully. "I am not thinking about that."

"And I'll do my best to locate the Heiml girl and see that she has plenty."

Jack remembered Heiml's outbreak of rage when Keith's name was mentioned, and hastened to say, "I hope I'll find her before I go."

So gradually, the thought of enlisting took shape in Jack's mind. It was with him when he stepped into the white bath-tub and enjoyed the luxury it afforded, with his shivering, appointments, snowy towels, foaming soap. But he couldn't forget what Private Crowe had told about the dirt, the mud, the lice, the scratchy underwear. He was glad to think of the wealth coming to him from the gold mine, for he craved all the luxuries of life, and he wanted to be able to give them to other people. He loved white sheets, smooth and satiny, and beautiful rugs with deep rich colors, he wanted music, pictures; but especially did he want these things for Heiml, who had such a love for beauty.

No matter where Jack's thoughts began they would soon come back to Heiml. He wondered if she had got the two hundred dollars all right. At first he had thought that she would send for it when they were outdressed at Peace River, but Keith said otherwise, and then they were all right. He had even written out an order for a friend of Keith's who offered to advance the money and get it when he went to Eagle Mines. What had he done with the order? Yes, he remembered—Keith got it

Many of Canada's leading social and sporting clubs use Red Rose Orange Pekoe Tea exclusively. The added strength and inimitable flavor of Red Rose Orange Pekoe makes it last longer, go farther and taste better. Packed in damp-proof aluminium.

back from his friend and destroyed it.

The first day Jack was in the city he made a thorough search of all the Chinese places, but without result. When he came to Sam's he was met by the wily proprietor, who had learned in a hard school that it is foolish to give information. Sam could lay down all his knowledge of English in a fraction of a second. "I don't know," all at once became his entire English vocabulary.

(To Be Continued.)

NEGLECTED ANAEMIA

Often Leads To The Most Serious Consequences

In no disorder is delay or neglect more dangerous than in anaemia. Usually the first noticeable signs are pale lips and cheeks, dark rims under the eyes and a feeling of weariness. Then follow headaches, backaches, palpitation and breathlessness. The only way that anaemia can be overcome is to enrich the blood, and it is because of their wonderful blood-enriching and blood-making properties that Dr. Williams' Pink Pills have won such great success in the treatment of this often most stubborn disease.

Thousands of young girls who were in an anemic condition over the present good health to Dr. Williams' Pink Pills. One of these, Miss Katie McColloch, of North Wood, says: "I praise the day I began the use of Dr. Williams' Pink Pills. I had not been feeling well for some time. I was very pale, had severe headaches, dizzy spells, and occasional fainting spells. The least exertion would leave me tired and breathless. In this condition I began taking Dr. Williams' Pink Pills. I continued their use until I had taken six boxes, by which time I was again enjoying good health. I hope my experience will lead other sufferers to give this medicine a fair trial. If you are at all run-down or weak, you should begin at once to take Dr. Williams' Pink Pills and you will be well and strong. These pills are sold by all medicine dealers or will be sent by mail at 50 cents a box by Dr. Williams' Medicine Co., Brockville, Ont."

Cardinal Newman On Style

To Produce Good Literature Put Your Thoughts Into The Simplest and Clearest Words Possible

"I have no objection to the Cardinal Newman. 'All my life I have tried to think out clearly what I know, what I see, what I feel, and to put it into the simplest and clearest words that I am able to use. To produce literature you must first of all write what you are writing about; know it as simple words as you can; cut out the purple patches; be sincere with your thought; grip the subject before you try to write it, and translate it into the simple English our fathers have handed down to us."

Wise women who know the virtue of Mother Graves' Worm Exterminator always have it at hand, because it proves its value.

Bank Carries Largest Sign

The largest outdoor advertising sign in Detroit has been made by painting the windows of the First National Bank Building to form the numeral "1st". The numeral is fifteen stories high, extending from the eleventh story of the big building. The letters "ST" extend eight stories.

For Rheumatism use Minard's Liniment.

Most of the bats of Canada eat only insects, but there are a few fruit-eating bats in the extreme south of the United States and many in Mexico and Central America.

The Least Excitement Made Her Heart Palpitate and Flutter

Mrs. Ambrose Orser, Elginburg, Ont., writes:—"I suffered for some time with a bad heart which seemed to be controlled by my nerves. The least little excitement would cause it to flutter and palpitate, and at times I would have real bad spells. I suffered in this way for some time when, one day, I was

advised, so to do, to try Milburn's Heart Nerve Pills. I had only one box when I noticed that I felt better, so I continued taking them and in a short time my heart felt entirely different."

Price 50c. a box at all druggists and dealers, or mailed direct on receipt of order by The T. C. Milburn Co., Limited, Toronto, Can.

Teeth and Health

Issued by The Canadian Dental Hygiene Council and Published by The Baskerville Dental Society

DENTAL HEALTH PILLARS

"Sugar and spice and everything nice" may be what little girls are made of, but certainly such a diet would never build strong, healthy little girls and boys.

With the child properly started on the road to health, through the mother's careful dietary habits, there must be no slackening in this regard, if it is to continue safely on the way.

Proper diet from the nursing period up through adolescence has much to do with the child's health. It is now that nutrition plays the chief role in the formation of healthy tooth tissues or in their early degeneration and decay. But hand in hand with this must be the maintenance of cleanliness through training the child in the best and most thorough mouth hygiene.

The notion that the deciduous teeth can be replaced by successors can therefore be allowed to go without the care necessary to keep them sound and comfortable is most misleading. Too early loss of these little teeth from any cause, leads to disturbances of the permanent dentition with consequent general disorders.

It would be better for the young child not to know the taste of sweets too soon, thereby avoiding their craving at this early age when they may be harmful both to the tooth and the body health. Plain wholesome foods should be the rule including plenty of milk, because it is both rich in nutrient qualities and easily assimilated, is the perfect food for the young child.

Parents should be reminded too, that the child should be brought to the dentist at about three years of age and thereafter at stated intervals. Preferably the first visit should be made before there are any cavities in order to establish the confidence of the young child in these services. Most of the dread of dental treatment, with its consequent gripping of mouth conditions among adults has arisen from recollections of a painful first visit during the tender years.

It may be further noted that the susceptibility to tooth decay is greatest in youth, most cavities appearing before the twenty-fifth year, and that the period of adolescence and beyond, marks the high-water mark of dental decay—due to the rapid physical changes in the body and the diet, mouth hygiene and systematic occupation which would keep her in the city. She follows a trap line within a ten mile radius of her house and her catch includes coyote, lynx, weasel, and fox.

Ocean Ships For The Great Lakes

Tramp Steamers From Europe Pushing Their Way Into The Great Lakes

One indication that if the St. Lawrence canals were deepened, sea-ports on the twenty-fifth year, and that the period of adolescence and beyond, marks the high-water mark of dental decay—due to the rapid physical changes in the body and the diet, mouth hygiene and systematic occupation which would keep her in the city. She follows a trap line within a ten mile radius of her house and her catch includes coyote, lynx, weasel, and fox.

Attacked By Asthma. The first sign of asthma is a feeling of constriction which hour by hour becomes more desperate and hopeless. To such a case the relief afforded by Dr. J. D. Kellogg's Asthma Remedy seems nothing less than miraculous. Its help is quickly apparent and soon the dreadful attack is mastered. The asthmatic who has found out the dependability of this sterling remedy will never be without it. It is sold everywhere.

Canada's New Status

Now Receiving General Recognition In International Procedure

The peculiar status of the British Commonwealth has received international recognition says the London Sunday Observer, in commenting upon the action of Secretary of State Frank B. Kellogg, in sending an invitation to the British Dominions to India to join the British government in participating in its convention to outlaw war.

The Observer expresses the opinion that it would be easy for the United States to make difficulties over extending to the Dominions an invitation which was originally limited to the great powers, but it declared that Britain's clear and inevitable statement that she could not act alone, has been accepted and the invitation transmitted directly to the Dominions.

British scientist says that the brain is the only part of the body which doesn't wear out. The test of this theory, in of course, first to find the brain.

Mrs. M. L. Lundy, for instant notice.

COOL AND FRAGRANT

A Girl Trapper

Follows a Trap Line Near Her Father's Homestead

Miss Jean Cameron, who came to her parents from England at the age of four, at ten commenced trapping in the district of her father's homestead. Today, at the age of 21, she finds it quite a lucrative and congenial pursuit and quite superior to any occupation which would keep her in the city. She follows a trap line within a ten mile radius of her house and her catch includes coyote, lynx, weasel, and fox.

Always Ready and Reliable.—Practically all pains arising from inflammation can be removed with Dr. Thomas' Electric Oil. Simply rub it on the sore spot and it is quickly absorbed by the skin. Its healing power is conveyed to the inflamed tissue which is quickly soothed. This fine old remedy is also a specific for a number of cuts, scratches, bruises and sprains. Keep a bottle handy always.

Over Fifty Minerals Being Produced

A notable feature of the program of the Dominion's mining country is the diversity of lines along which Canadian mining has advanced. Some fifty different minerals, metallic and non-metallic, are listed in this number. Figures for 1926, and the product includes a variety such as nickel, cobalt, asbestos, gold, lead, silver, copper, and zinc, in which Canada either leads world production or ranks among the greater producing nations.

A Swedish count is coming to Canada to learn farming by working as an agricultural laborer, and the question is, what farmer is going to take the count?

It is better to be lonely than to be bored.

HERCULES

PERMANENT BUILDING PAPER

EASY TO USE

Hercules Permanent Building Paper is tough. It will not tear or crack with rough handling. Builders save time and avoid inconvenience with it.

EASY TO SPECIFY

Hercules comes in three grades—No. 1, No. 2, and No. 3—for various purposes. Specify "Hercules" and the grade required.

EASY TO SELL

When a home in Hercules is protected, selling is easy. There is always a ready market for a dry and warm home. Hercules is tested and proven wind proof and damp proof.

Remember Hercules. We will gladly furnish samples. May we?

Personal and Local

Whist Drive and dance in the Moose Hall on Monday, June 11, at 7:30 p. m.

You are urged to take advantage of the Dollar Specials at H. E. Gate's store, where there are some extraordinary bargains.

Kennie Gresham, son of Magistrate Graham, Blairmore, will preach at the Salvation Army service on Sunday night at 7 p. m.

Visitors to Calgary the latter part of last week were Mr. and Mrs. A. M. Morrison and Mr. and Mrs. W. L. Rippon.

Sunday school at the United church meets at 10 o'clock for the next three months. The attendance should be kept at a good level at least till the end of June.

The W.O.M.L. will hold a bazaar on Monday, June 11, in the Moose Hall. Everybody cordially invited. Afternoon tea will be served at 3 p. m.

Mr. G. R. Powell attended the Optometric Association's convention in the Palliser Hotel, Calgary, on Wednesday, and will remain for a few days to visit at his son's home in the city.

Several weddings have recently been held at the Holy Ghost church. On May 28 Frank Krutik and Miss Yavorek were married. Mary Bell was married to Joe Lipowski and Stelfie Bellish to Joe Lysek.

The Rev. A. D. Currie has been compelled to remain in bed this week and has been ordered by the bishop to take a complete rest. He expects to leave shortly for a holiday in British Columbia, as since his illness during last winter he has suffered considerably with a severe cough. His friends hope for his speedy and complete restoration to health.

Miss Chardon's pupils in music achieved quite a record in their examinations held by the Royal Academy of Music. Of a class of ten, five passed with distinction, three with honorable mention and two passed. Freda Antrobus was one of the successful pupils, and to mark her success was presented with a beautiful wrist watch by her mother.

Dr. and Mrs. Borden and a party of friends had an unpleasant experience on Sunday, when their car was stalled in the vicinity of Crows Nest station. They were exploring an old trail when the wheels of the automobile took a sudden drop, and so firmly wedged was it that all efforts to move it were without avail. Dr. Borden piloted his party to Crows Nest station, whence they returned to Coleman by train. On Monday he took a party of stalwarts with the necessary equipment to the stalled car and they very soon had it back to town, none the worse for the accident.

B. of T. Campaign For Membership

Senator Buchanan Invited to Attend Meeting on Thursday, June 21st

A campaign will be launched this week to enrol as many as possible in the Board of Trade. When it was organized a few years ago it had around 120 members, and there is every reason to believe that an equal number can again be secured. It is proposed to hold the annual meeting on Thursday, June 21, and Senator Buchanan, of Lethbridge has been invited. It has also been proposed to hold a banquet in connection with the annual meeting, so that it will be a real get-together affair to revive interest.

"Every Business Man a Member" is the slogan of the Board.

Boys and Girls!

In one of the store advertisements a word has been intentionally omitted. Find which advt. it is, write the word you believe should be there, place it in an envelope and mark Contest, and address to The Journal, or leave at the office. The first correct answer taken from the box will be awarded one dollar, and to the next six correct tickets will be given to the Palace to see Charlie Chaplin's famous picture "The Circus" on June 15-16.

At the Palace Theatre

"The Shepherd of the Hills," adapted from the famous novel by Harold Bell Wright, with Alex. B. Francis and Molly O'Day playing the lead, will be the feature on Friday and Saturday at the Palace. On Thursday (to-night) the Delaney Henney fight picture will be shown, and a feature picture, "The Coward."

On Friday the Sam Mandel and McLaren fight picture will be run for the first time in the Palace, together with "The Shepherd of the Hills."

Beautiful Rain—and Snow

The entire western country has benefited enormously this week from timely rains, while the mountains have received a fresh mantle of snow. The farmers will feel happy, while the tourist who comes through the Rockies will have his expectations realized of seeing snow on the peaks in the summer time. The greatest benefit accrues to the farmers, which in turn reacts

TENDERS

Coleman School Board

Tenders to relay flooring on one class room and portion of hall, approximately 1558 feet board measure, No. 1 Maple, to be commenced on July 1, will be received by the chairman of the Board up to and including Wednesday, June 13. THOS. JOHNSON, Chairman. JAMES FORD, Sec.-Treas.

DIAMONDS

A good Diamond has never been a poor investment; it becomes more valuable with the passing years. For weddings, birthdays, anniversaries, betrothals and other occasions the gift should be a worthy one; Genuine, useful and beautiful. It should be something that will carry a lasting, if not a life-long remembrance. Diamonds will do this. Any selection made here will be new and modish in pattern, dependable in quality and true to our representation.
